

MISCELLANEOUS.

A Perfect Laxative

Should be mild, prompt, and pleasant, with no gripping or purgative effects. It should also induce the liver to action, aid digestion, and relieve the bowels. Like nothing else, Paine's Compound is a perfect laxative, and cures constipation where all other remedies fail.

"As a gentle laxative, Paine's Compound is surely without a peer. I think I ought to know, since I have tried it for many years, and have found nothing that equals it in my case of constipation."

J. B. JENKINS, Teacher, Cloyd's Creek, Tenn.

"Paine's Compound is prompt and pleasant. As a laxative it leaves little to be desired. I have great confidence in its merits."

ALBERT LEONARD, Associate Editor,
Journal of Pedagogy, Athens, Ohio.

"For two or three years I suffered intensely every night with severe pains in my bowels, which were habitually constipated. My bowels are now regular, and I have had no return of those pains since using one bottle of Paine's Compound."

Paine's Celery Compound

F. G. STURGEY, Druggist, Nevada, Ala.

Moral: Use Paine's Celery Compound and stop ruining the intestinal tract with harsh purgative pills.

\$1.00 Six for \$5.00. Druggists.

RAISING THE WIND.

How a Shrewd Yankee Got a Dead Man's Note Cashed.

For several years past the public has heard of and known a rather eccentric lawyer by the name of Ezra Andrews, who has been oscillating between the professions of lawyer and pedagogue, says the Pittsfield (Mass.) Advertiser. At the time of this incident Ezra was an inhabitant of the town of Burham, a practicing lawyer. Finding himself out of business, and being a little short of lucre, he perambulated among the business men to get a bill to collect. R. Gilmore, one of the principal merchants of the town, held a note against an old man whose home was in the town of Canaan, which was outlawed.

He offered Lawyer Andrews a half-interest in the debt if he would make a trip over to Canaan and by hook or crook get the note renewed, which was accepted; and, as terms cost money, our hero concluded to go aloft, so he wended his way one pleasant June morning to his delinquent debtor's home, a distance of five miles. Imagine the chagrin depicted on the lawyer's countenance when he learned the fact that the old gentleman had been dead two years, and had died a pauper on the town farm. He sought the friendly offices of a shady lawyer, the cunning influence of a stone wall, where he seated himself to think and get the bearings here, urged on by "necessity, the mother of invention." Here he studied the situation.

Shortly, starting up from his reverie, he borrowed a pen and ink and went to the cemetery, which was not far distant. Here he traced out the last resting-place of the victim who had escaped his insolence by passing in his earthly checks and was quietly sleeping his last sleep. This arm of the law search him before the marble slab and copied the name in full on two notes previously prepared and made into two documents, one in favor of Gilmore, the other running to Ezra Andrews or his assigns, forgetting to add legal costs, mileage, etc., half-dollar being added, lawyer-like, for the etc. Under the name he printed a cross, and in small letters, almost illegible, he wrote, "by Ezra Andrews."

Then casting a furtive glance back at the dead spot, he took the home stretch for Burham.

As he passed the office of a well-known speculator, he entered and accosted him with the common assurance of the legal profession that he was short and had a note to sell that he would stand a shave on. The latter part of the sentence was distinctly understood by Libby, who asked to see the document, which was shown him. He remarked that he did not know the party signing the note; but, after Ezra explained that the old gentleman owned and had a sure title to real estate and owned the personal property he had around him, and did not owe one dollar in the world, the note was discounted at fifty cents on the dollar. Later on, when Libby heard the facts, Andrews was called up, and said his statement was correct. The little spot, two by six was the dead man's real estate; his winding sheet and coffin his personal property; death had discharged all his debts.

THE HUMAN EYE.

Circumstances Under Which It Can Render Life a Burden.

Every body has heard of the magnetic power of the human eye, says the Chicago Journal. It is said to have done, and to still do, wonders to tame wild beasts on four and on two legs, to dominate, by sheer will-power, every thing that crawls, walks or flies. There must be a great deal in it, for there is one place at least where I've often made the observation personally that there is a certain fascination in the steady stare of the human eye, varying in degrees in different persons. That place is the street-car. Every reader must have noticed the same thing. Often one man, possessed of an unusually fascinating eye, will stare everybody, male and female, out of countenance, and that, too, without meaning it. The other day, in a North-side cable car, the hour being five in the afternoon and the car being pretty well crowded, there was such a man standing in the center of the car aisle hanging on to a strap. His glance would roll negligently over the passengers, and then, as if by magic, he would fix it intently over the persons surrounding him, seated and standing. He was no "masher," either. He was plainly dressed, and the cast of his features and the intellectual and serious expression on his face bespoke a man not given to dallying with the little sportive archer. His look, as it swayed up and down, fitting here and there, was that of a man who likes to study faces—that was all. But every body was inconvenienced by it. One lady, a stout person of fifty summers at least, became so annoyed by his steady fast gaze that she took refuge in her handkerchief, and squeezed that tightly against her face. A young girl grew so nervous that she dropped her sachel and picked it up again in great confusion, and one man, who seemed to be a reporter, to judge from the large number of evening papers in his overcoat pockets and from the array of sharpened pencils in his breast, finally buried his nose in one of those papers. There was something weirdly powerful in this man's gaze. He might make a fortune as a mesmerist. Perhaps he is one.

Extenuating Circumstances.

Housekeeper, in search of a mistress—"You want five dollars a week? Why, I can get a good, experienced girl for three and a half, and you say you can neither cook nor iron and never worked out before!" The lady, willing to accept a situation—"Ah, you raise, mum; but this I haven't niver a brother or a cousin, nor any relation at all this side of the wather, mum. 'Tis all alone I am." Housekeeper—"Say no more; I will pay you a dollar a day till your first cousin calls."

BUYING A BUSTLE.

A Chicago Man Undertakes the Task and Meets Ignominious Defeat.

If ever a man felt like drawing his knees up to his chin and taking a back somersault into the inky gloom of oblivion I did myself the other day, writes Frank B. Welton in the Chicago Times.

We have a plethoric household up where I live. "She who must be obeyed" remains with the combination while I am appointed purchaser and errand-boy extraordinary in all matters of trade. I was commissioned to bring home a five-spoked wheel, a "double ontender" bustle, with a gve-and-take reciprocal movement, and a double row of knife-and-fork platings around the superstructure. The brand of courage that is most in demand when a man is called upon to peer into the dim and deadly depths of a hostile cannon is the kind that he needs a good supply of when undertaking to penetrate the intricacies of feminine apparel. Of this I became assured when I entered the ladies' supply department of one of our large dry-goods establishments, and sought to run to earth the article in question. With the co-operation of a real sweet thing in Dundrearys I brought up at the bustle counter, and, seating myself on a high stool, I examined the bustle with all kinds of anatomical brace-brag, requested the young lady in attendance to hand me down a choice assortment of her wares. I must have taken her unawares, for she manifested some trepidation before inquiring how high I wanted to go for a bustle. I informed her that I did not want to go very high—something medium would hit the bill. I then inspected a number of vertebral elongations, ranging from the maximum to the minimum in size and price. Of one thing I became impressed while revealing amidst a wilderness of straps and springs, and that was, the danger of a man's getting so mixed up among them that he wouldn't know whether or not he was looking for a bustle or a bird-cage or a bustle. I soon succeeded, however, in securing a fair-sized specimen—one that seemed to be all that would be required of it by the members of our household. Slipping my package, coated with the bustle dust, into a solid hunk under my arm, I started out and boarded a street-car for home.

I have said I boarded a car. So I did. I regretted soon afterward that I did, and wished that I had boarded me and kindly ground me and that bustle into an unrecognizable mass. But such was not my fate. I seated myself in the car amid a bewildering profusion of brand-new matinee fabrics, furberlows and trignon, and giving my package an extra punch under my arm for safety proceeded to breathe in the ravishing odors of good West-side street-car hay. So rapid did I become in the general gossip that I became unconscious of the fact that I was the totidian of a well-developed, energetic bustle until I was recalled by a movement under my arm as of a nest of young alligators just waking up and moving out for deep water. Glancing down I was greeted by a bulging rib of steel that had worked its way to the surface, and as I soon found out, to the notice of the charming young lady immediately opposite. With a cautious movement of my disengaged hand I gathered the toppling rib into the folds of its paper covering, and at the same time became aware that the mainbrace of that package had slipped its moorings. With the discovery all the perspiration I happened to have on my back slipped its moorings and discharged itself in icy rivulets in the direction that water always takes when it gets loose and has its own way. A sensation as of a small but robust galvanic battery toyed with my spinal column, and my hat-belt seemed to contract and shut off all brain reinforcement—in a word, I was paralyzed with perplexity. What was to be done? I sought the answer in the mischievous glances of that beautiful maid opposite. I peered across into the basilisk optics of a stern old party in specs. I desperately struggled against the fearful catastrophe threatening me, but all to no avail. First one rib asserted itself, then others followed suit. In the throes of desperation I seized the vile thing with the grasp of a cable-grip and endeavored to throttle it, but alas, it had worked a few more ribs loose and was struggling desperately to regain its rightful position in the world. I grasped the wrapping-paper with both hands and sought to smother the thing into submission, but it writhed and twisted, curled and sprang, and I saw it was no go. With a wild, despairing glance at the grinning imbeciles all about me, I followed the advice that was given Mr. Gallus—"Let 'er go!" That settled it. I immediately became the central figure of the group—the cynosure, so to parody, of all eyes. I longed for a coal-bucket; anything to afford me a swift and sudden departure from this vale of tears. I was unbuttoned my coat, folded the treasure close to my bosom, dropped off the rear end of the car, and after jumping on that accursed bustle, struck for home—sweet, sweet home. I am slightly bruised, but not seriously hurt.

Women Who Pass Theater Tickets with Gray Whiskers.

Just then, says the New York Graphic, came along a gentle, tender young thing in the quietest of tailor-made suits, and said in the sweetest tone: "I tore off my coupon out there in the crowd and lost the ticket. Can I get in on all right and she handed the man of fate her coupon."

"But this coupon is dated three days ago. It is no good now."

"Dear me," she said, with the softest surprise, "I must have gotten it mixed," and she went back and bought a ticket for the first time to-day.

"Is there much of that sort of thing tried on?" inquired the amazed reporter.

"More often by women than men," was the sad answer. "But we are pretty sure to get on the other scener or later. They buy admission tickets and then hand the usher an old coupon, and he in the rush doesn't notice, and gives them a seat, but the chances are that seat will be sold, and when the bona-fide owners come, why, there's our ladies left. Now, if a man did a thing like that and was caught he'd get out of the theater. He'd feel mad and disgraced, or else he'd feel that to make any thing from his cheating he'd have to rest content with what of the performance he had already seen; but a woman, bless you, a woman's altogether different. She doesn't feel disgraced, she doesn't see any harm in what she's done, she thinks we are fools to make a row about a little thing like the date on a coupon, and she's gotten interested in the play and she's dying to see what the leading lady wears in the next act, and she just skips out to the box-office and buys the best seat she can get. Of course, it ain't so good as she could have gotten an hour before for the same money, but she doesn't let that fret her. I believe she thinks that after all she's made something out of us somehow. Leastwise, I notice that the woman that gets to doing them kind of things keeps right on, whether she's caught or not."

Thursday, May 23, 1889

5 O'CLOCK EDITION.

In Eureka, May 21st, the case of the State vs. Charles Lautenschlager, charged with violating the early closing law, was dismissed on motion of the District Attorney. Old Morality has not yet stood up a single round without getting knocked out in Nevada. The law ought to be suspended until the people get their appetite for drink educated up to its requirements, and then there will be no need of it. — *Enterprise*.

If Eureka county has a District Attorney who has not the moral courage to see that the law is enforced, we do not wonder that "Old Morality" has been knocked out. The direction of the officers is one great, and in fact, the only reason that so many of our laws are dead letters upon the statute books. The Legislature passed the 12 o'clock closing law, and it stands upon the books and should be obeyed as much as any other law that we may have. The fact that Eureka saloon men are violating its provisions is no reason why "it ought to be suspended until the people get their appetite for drink educated up to its requirements." The demoralizing effect of Eureka saloon men is made manifest in the dispatch sent in from there, which reads as follows:

EUREKA, Nev., May 21.—Second case under midnight closing law called for trial to-day and dismissed by District Attorney, who announced in Court that he was satisfied that no conviction could be had. This ends it here. All having good time.

GUS HINTZ,
C. LAUTENSCHLAGER.

The saloon men of Washoe, be it said to their honor, are not trying to evade the law in the slightest degree, but accept the situation cheerfully, and all agree that it is a good one. If Eureka saloon keepers would take pattern after those in this county they would be held in much higher respect by the community at large.

INGERSOLL ON NAPOLEON.

What His Thoughts Were While Viewing the Tomb.

During a recent speech, Colonel R. G. Ingersoll said: "A little while ago I saw the grave of old Napoleon—a magnificent tomb of gilt and gold, fit almost for a deity dead—and gazed upon the sarcophagus of rare and nameless marble, where rests at least the ashes of that restless man. I leaned over the balustrade and thought of the career of the greatest soldier of the modern world. I saw him walking on the banks of the Seine contemplating suicide. I saw him at Toulon. I saw him putting down the mob in the streets of Paris. I saw him at the head of the army in Italy. I saw him crossing the bridge at Lodi with the tricolor in his hand. I saw him in Egypt in the shadow of the pyramids. I saw him conquer the Alps and mingle the eagles of France with the eagles of the crags. I saw him at Marengo, at Ulm and at Austerlitz. I saw him in Russia when the infantry of the snow and the cavalry of the wild blast scattered his region like withered leaves. I saw him at Leipzig in defeat and disaster, driven by a million bayonets back upon Paris—clutched like a wild beast—banished to Elba. I saw him escape and re-ascend an empire by the force of his genius. I saw him on the frightful field of Waterloo, where Chance and Fate combined to wreck the fortunes of his former king. And I saw him at St. Helena, where his hands crossed behind him, gazing out at the sad and solemn sea. I thought of the widows and orphans he had made—of the tears that had been shed for his glory, and of the only woman who ever loved him, pushed from his heart by the cold hand of ambition. And I said I would rather have been a French peasant and wore wooden shoes. I would rather have lived in a hut with a vine growing over the door, and the grapes growing purple in the amorous kisses of the autumn sun. I would rather have been that poor peasant, with my wife by my side knitting as the day died out of the sky—with my children upon my knees and my arms about me—I would rather have been that man, and gone down to the long silent silence of the dreamless dust, than to have been the imperial personation of force and murder known as Napoleon the Great.

Five Persons Cremated.

NORFOLK, Va., May 23.—The residence of the Rev. F. C. Clarke, in Princess Anne county, was burned last night. He, his two daughters, and next to his oldest son and a niece visiting him were consumed by the flames. His wife, Miss Ella Bigdow, the governess, and two young children escaped. The origin of the fire is thought to be incendiary. Clarke was the pastor of the London Bridge Baptist Church, and a preacher of note. Loss, \$200,000.

It was maintained by the late Horace Greeley, that "nothing succeeds like success." If this be true, Chamberlain's Cough Remedy will always be popular, as it never fails. It is intended especially for coughs, colds, croup and whooping cough, and is undoubtedly the best and most reliable medicine in use for those diseases. It is decidedly a success. For sale by Osburn & Shoemaker.

To-Day's Races.

GRAVESEND, May 23.—In the first race of a mile and a sixteenth Sephyron won, Madstone second and Longstreet third. Time, 1:49.

The Great American stakes for two-year-olds, five furlongs, guaranteed to be worth \$20,000 to the winner, and the St. James Hotel stakes, a mile and a quarter, will be features at Gravesend to-day. Senator Hearst's Ballarat and Gloaming, his crack youngsters, and Carlos and St. James, said to be the best of Belmont's juveniles, will appear with a dozen other cracks in the Great American. Hanover, Elkwood, Glen Echo and Diablo will doubtless make the race from end to end for the St. James stakes, and the other races have fine fields.

The second race, a mile and a sixteenth, Brother Ban won, The Bourbon second and Bohemian third. Time, 1:49.

In the third race St. Carlow was first, Ballarat second and Torsio third. Time, 1:02 1/2.

Arrest of a Confederate.

CHICAGO, May 23.—It is reported that the arrest has been made of a confederate of Woodruff, who is believed to have been implicated in the murder of Dr. Cronin. The police are recalcitrant. The inquest will be held this afternoon.

W. P. Read, a prominent Irishman, had a long talk with the State's Attorney about the Cronin case this morning, and, before going, he said to a reporter that he could put his hand on the man who instigated the murder. Afterwards he refused to talk, but the State's Attorney said he had received clues which would, he believed, soon lead to the arrest of the murderers.

The Chief of Detectives said there would probably be a number of arrests this afternoon.

The State's Attorney said this afternoon that he has a clue which he believes will lead to the arrest of the originators of the conspiracy which resulted in the death of Dr. Cronin.

Blaine Declines to Talk.

WASHINGTON, May 23.—It is reported that the U. S. steamship Boston will be sent to Hayti, carrying a commission under the authority of the State Department to ascertain and report upon the condition of affairs in Hayti, whether there is a disposition on the part of any European government to interfere in Haytian matters and what, if any, action is required on behalf of the United States. Blaine declines to talk on the subject.

Steamer Arrivals.

NEW YORK, May 23.—Arrived—Steamers Hammonia and Moravia from Hamburg; City of Rome and City of New York from Liverpool, and State of Germania from Glasgow.

SOUTHAMPTON, May 23.—Arrived—Steamer Aller from New York for Bremen.

Fatal Case of Jealousy.

PITTSBURG, May 23.—A special report that Frank Compton killed his wife Dora at West Pittston this morning and then cut his own throat, dying two hours later. After killing his wife and cutting his own throat, he walked down stairs and, with his bloody fingers, wrote the word "Jealousy" upon the sitting-room wall.

More Gamblers Fined.

LONDON, May 23.—The persons arrested in the raid on the Adelphi Club were tried to-day. The proprietor was convicted of keeping a gambling resort and fined £500, the Secretary £200, and the players were discharged.

Heavy Fire Loss.

NORFOLK, Conn., May 23.—The southern terminus of the Housatonic road at Wilson Point was fired last night and totally destroyed. A quarter of a mile of the new wharf, fireproof buildings, passenger depot and a large number of freight and passenger cars were burned. Loss over half a million.

Caught in a Mine.

LONDON, May 23.—The roof of a colliery at Merthyr, Tydvil, Wales, has fallen in, killing one miner and entombing 58 others. Work is being actively prosecuted for the rescue.

Minister Lincoln Presented.

LONDON, May 23.—Robert T. Lincoln, the new American Minister, has taken up his residence at No. 5 Cadogan Square.

Henry White of the American Legation Presented Lincoln to Lord Salisbury to-day.

Under Police Protection.

WEST SUPERIOR, Wis., May 23.—The Mayor has closed all the saloons in the city in anticipation of trouble between the striking heavies and the new men imported to take their places. The new men are working under strong police protection.

Still on the Stand.

LONDON, May 23.—Gladstone was present at the sitting of the Parnell Commission to-day. The cross examination of Wm. O'Brien was continued by Attorney-General Webster. O'Brien declared that the United Ireland (his paper) worked according to constitutional methods and advocated nothing but peaceful means to obtain the end sought by the Irish Parliamentary party. He declared that the London papers were more responsible for the actions of the dynamite party than either Finnerty or Ford; that but for the views of those papers expressed, 1,000 pounds would not have been collected in America for the use of the dynamiters.

He admitted the authorship of the article declaring the chairman of the committee selected to receive the Prince of Wales on the occasion of his visit to Ireland would be hunted from public life, and he vehemently exclaimed: "He has been deceived by a show of sham loyalty. I am resolved to tell the truth." O'Brien said that personally he had never spoken disrespectfully or offensively about the Prince of Wales. No people, he declared, ever suffered more for their loyalty than Irishmen, and none profited more by their protestations of loyalty than the people who oppressed them.

Badly Stove In.

QUEBEC, May 23.—The steamer Polynesian, which was in collision with the steamer Cynthia yesterday morning, is moored at the wharf here. The starboard bow, from the upper deck to the keel, a distance of twenty feet, is completely gone. The tide is flowing in and out of the fore compartments, which are filled with water.

Trying to Deceive Each Other.

BERLIN, May 23.—Emperor William to-day appointed the Crown Prince of Italy a Captain in the Thirtieth Hussars, and also presented a portrait of himself to Crispien. The Emperor and King Humbert made a visit to the tomb of the late Emperor Frederick, upon which King Humbert placed a wreath of flowers.

A Damage Suit Threatened.

LONDON, May 23.—Dr. Mackenzie, physician to the late Emperor Frederick, is about to bring suit against the Times and Steinkopf, proprietor of the St. James Gazette, for publishing a letter written by Steinkopf, in which he accused Dr. Mackenzie of conspiracy while treating the Emperor.

Memorial Mass.

BAITMORE, May 23.—The centennial celebration of the establishment of the Catholic Church in the United States began this morning in the Carroll Memorial Church at Hyattsville, Prince George county, Md., by a memorial mass in honor of Archbishop Carroll, the first Roman Catholic prelate of the American hierarchy.

Instantly Killed.

SAN FRANCISCO, May 23.—A boiler on which George Leitz, a machinist employed at the Union Iron Works, was working slipped from the crane, and falling, crushed Leitz's head to jelly. Another employee named Tenstrom was badly injured.

Bar silver, 92 3/4.

PERSONAL.

M. D. Foley has gone home.

R. L. Fulton left for Utah this morning.

John R. Bradley left for Elko this morning.

Senator Jones is expected here in the morning.

Harry Clawson passed east this morning.

John R. Bradley left this morning for his Elko county ranch.

L. A. Blakeloe returned to Winnemucca on this morning's train.

J. F. Dennis of the Battle Mountain Nevada, went home this morning.

Will Henry, late Clerk of Esme Nevada county, went home last night.

Hon. S. C. Wright, the new Mint Superintendent, goes to San Francisco to-night.

Pat Lannon of the Salt Lake Tribune came up from below this morning, en route home.

Mrs. Theo. Winters came down from Washoe last night to see her husband off for the East.

Mrs. Lyman, nee May Finlayson, arrived last evening from Montana on a visit to her Reno relatives.

Prof. Le Roy D. Brown left for West Point this morning. He will be absent until after the commencement exercises at the University.

Superintendent of Public Instruction Hon. W. C. Dovey returned this morning from a visit to the central and eastern parts of the State.

Clerk of the Supreme Court Bicknell came down from Carson last evening to meet his wife and son, who returned from below on this morning's express.

Theodore Winters left this morning for the East to witness the performance of his runners, which are to be entered in many races during the season.

Senator Stewart and Senator Hoar, with the entire Committee on Commercial Relations with Canada, are coming here in a day or two, and going out on the C. & C. to inspect the country.

A. Benson and youngest son left this morning for Cloverdale, Cal., to which place Mrs. Benson and other son will follow them soon, and where they will all remain during the summer.

President Leroy D. Brown of the State University, accompanied by his young son, left this morning for the East to fill his appointment as one of the civilian visitors at the West Point Military School.

Prof. E. M. Van Harlingen of the Signal Service located at Winnemucca, and a graduate of the Ohio Agricultural College, is visiting Reno to-day, the guest of Prof. Miller. Mr. Van Harlingen is on his way to San Francisco, thence east by the southern route.

Dr. L. O. Hudson, president of the renowned American Electric Bell, for the cure of all chronic, nervous and blood diseases, arrived in Reno this morning to remain a short time. His office is at the residence of W. Pinniger, second house west of the Public Library.

THE MILITARY SITE.

A Number of Taxpayers go to Hear the Report of the Committee.

The adjourned meeting on military post grounds met last evening and the committee made a partial report. They stated that a very fine site could be obtained, made up of parts of the Wheeler and Lake ranches, for \$62,500. The bench at Mayberry's is a grand location, and could be had for \$20,000. Sharr's ranch and sufficient adjoining lands could be had for about \$8,000. The Evans land above the reservoir could be got at a reasonable price. Section 9, owned by Mr. Powning, Mr. Bender, the railroad and others, is a very fine place, looking down on the town and valley, and the price would be fair. Mr. Wheeler examined Prospector Valley, six miles from Reno, and though it is lovely land, it is not accessible to water and is too far away. Mr. Powning said that letters from prominent officers of the army, notably Major Gordon, suggested that 100 acres would be plenty of room, and, if so, there would be no trouble in getting lovely grounds at a very fair sum. He said the committee was invited to visit three or four other places—one near Glendale, owned by Frost and others, another above the English mill, one at the old Fair grounds, etc. The committee was given two weeks further time to report at the same place. R. J. Fulton said that he corresponded with parties living in towns adjoining military posts, and the unanimous answer was that the benefits to a town could not be overestimated. They are immense financially, commercially, socially, and in every other way. It was of the opinion that this matter deserved a great deal more attention than it was getting from the majority of people.

Mr. Beck said he felt that it was a matter of the utmost importance and he would like to see the people of Reno get together on this and other matters, but he had always found fault with them for not hanging together. Most of them were willing to work for anything that would benefit them, but not benefit any body else. He understood that the Senators would do all they could to get a post here, and he thought it unnecessary to give the Government anything. He being engaged in manufacturing in a small way had given the subject much thought. He said that if the people would work together that he was satisfied that we could double our inhabitants in three years. He denounced sending away for goods, printing, etc., when it could be got at home. He said that if one neighbor would patronize the other that we would get along much better for it would keep the money circulated at home. He had adopted that principle and found it to work well, and if all would follow it we would have a good town. He wanted a military post, but did not feel like paying all it was worth to get it.

No further business appearing, the meeting adjourned for two weeks.

THE STORM AT APIA.

Lines From the Pen of R. M. Daggett.

The following lines are from the pen of R. M. Daggett. R. H. Lindsay gave him the inspiration recently. It is on the bravery displayed by the crew of the American ship Trenton in the recent gale at Apia, where her crew cheered lustily at the manner in which the English ship Calliope was handled when she put out to sea. Mr. Daggett writes Mr. Lindsay as follows:

VIENNA, May 21, 1889.

My Dear Bob: I lavished myself of your inspiration, I am not satisfied with the result, but I inclose it, nevertheless. You can do whatever you please with it. Sincerely yours,

DA G.

APIA.

The embattled winds, like a god of wrath, smite the idle with savage might; And the goes down in the tempest's path, And the mango reels in flight.

Now the thunder ships, with their anchors cast, Are white with the driving spray, And are ready for the battling blast, Entombed in the reef-ribbed bay.

Stalwart arms and hearts clasp to every deck, With the sailing hills in view; To fly to leap from the storm-swept deck; To die in the blue.

Now a hope forlorn, with defiant scream, Is storming the gates of death; Its weapons are fire, its armor is steam, Its trumpet the engine's breath.

The struggle is fierce, but with triumph near, With a will to dare and die; From the sinking Trenton bursts forth a cheer, As the Briton battles by.

Stout voices that up through the tempest rise, Brave cheers of the Yankee tars; O, blazon their notes in the western skies, And scroll them among the stars.

A Sea Sick Passenger

On a ocean, on a day, about a storm He is positively indifferent whether he is washed overboard or not. But, set right by a wine glass full of Hostetter's Stomach Bitters, he feels renewed interest in his personal safety. This fine corrective neutralizes in water when completely drunk on shipboard, to the grievous detriment of health—the pernicious impurities which give rise to disorders of the stomach, liver and bowels. To the mariner, the tourist, the Western pioneer and miner, the Bitters is invaluable as a means of protection against malaria, when its seeds are latent in the air and water. To the effect of overwork, mental or manual, it is a most reliable antidote, and to the debilitated and nervous, it affords great and speedily felt relief and vigor.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Hodgkinson & Co., druggists.

The immediate symptoms of Dyspepsia, or Indigestion, are a sickening sense of weight, oppression and fullness in the stomach, heartburn, loss of appetite, foul breath, belching, flatulency, constipation, and all the troubles and distresses of the system.

Dr. Hensley's Dandelion Tonic promotes healthy digestion and removes all unhealthy symptoms. Sold by William Pinniger.

It should be generally known that Dr. Hensley's Dandelion Tonic insures a hearty appetite and increased digestion, dispels nervous depression and low spirits, overcomes lack of energy and wakefulness, and will infuse new life and strength into the weakest invalid. Sold by William Pinniger.

We have a speedy and positive Cure for Catarrh, Diphtheria, Canker Mouth, and all the diseases of the Throat, Nose, and Lungs. A Nasal Injector free with every bottle. Use it if you desire health and sweet breath. Price 50 cents. Sold by Osburn & Shoemaker.

JOTTINGS.

E. C. Leadbetter knows what people want and thereby keeps a good trade. Go to Lange & Schmidt's for garden hose, lawn mowers and ice cream freezers.

Go to Coffin & Larocomb's for boneless codfish, canned salmon, mackerel and lobsters.

If you want a little more than full value for your money, take your meals at the Riverside Hotel.

C. J. Brookins carries all the latest in sheet music, the latest novels, blank books, either in sets or single.

Lorillard's tobacco, the best cigars and cigarettes, pipes, cigar and cigarette holders at C. A. Thurston's news depot.

By taking your noon luncheon at George Becker's Granite Saloon, you will have just the right kind of an appetite for your evening meal.

Don't waste good money for bad meat, so long as John Fraser is selling the best at the lowest rates. All orders promptly delivered in any part of the town.

For a noon lunch that is equal to an average breakfast house meal, go to J. J. Becker's Chicago Saloon, where also is to be had both Boas and Sacramento beer.

Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic. If you are afflicted with any disease of the kidneys or Liver or Stomach, or long or short standing you will surely find relief by the use of Electric Bitters. Sold at 50c and \$1 per bottle at Hodgkinson's drug store.

In Three Days.

Three days is a very short time in which to cure a bad case of rheumatism, but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert of Great Brunswick, Ills.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day, and I would urge on every person who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." For sale by Osburn & Shoemaker.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Hodgkinson's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, croup and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free; large size, 50c. Every bottle warranted.

Washoe Brewery.

The Washoe Brewery has been leased by Bohle & Becker, and has had a thorough overhauling; cleaned, painted and furnished throughout. The brewery is noted all over the State for making the finest beer in the market by all who have used it. It is kept clean, neat and pure, and is open to all visitors. Give them a call. 5-17w1

O, What a Cough.

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease, Consumption. Ask yourselves if you can afford for the sake of saving so cents, to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a million bottles were sold the past year. It relieves Croup and Whooping Cough at once. Mothers do not be without it. For Lame Back, Side or Chest, use Shiloh's Plaster. Sold by Osburn & Shoemaker.

EDITOR OF THE GAZETTE: Please announce in the columns of your valuable paper that we are sole agents for St. Patrick's Pills, the most perfect cathartic and liver pills in the market. They not only physic, but cleanse the whole system, purify the blood and regulate the liver and bowels; they are vigorous but gentle in their action, and can always be depended upon. For sale by Osburn & Shoemaker.

Dyspepsia and Liver Complaint. It is not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints if you think so call at our store and get a bottle of Shiloh's Vitalizer. Every bottle has a printed guarantee on it; use accordingly, and if it does you no good it will cost you nothing. Sold by Osburn & Shoemaker.

Advice to Mothers.

Mrs. Wagoner's Soreness Gums should always be used for children's teeth. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. 25 cents a bottle. jylw

INTERESTING LECTURES

By President of the State University and Rev. T. E. Sisson.

The published programme for the exercises at the Methodist Church last evening were faithfully carried out. President Brown of the State University opened with his lecture on the "Relation of the State University to Christianity." As a Methodist the speaker thought it his duty to do all he can for the advancement of Methodism and Christianity in general. He did not believe true morality can be taught without teaching Christianity any more than Christianity can be taught without teaching morality.

The speaker admitted that since his arrival on this coast he has become more radical on the liquor and tobacco questions than ever before, mainly produced by having witnessed in this country more of the evil effects of stimulants and narcotics on the youth than ever before. He held that no one addicted to the use of either liquor or tobacco is fit to teach, that their example on their pupils is wholly bad, and that all having charge of the education of the youth should have the love of God in their hearts. The speaker referred to what seems to be the opinion of many people in this country, that religion is hypocrisy and cant, and, as one man had expressed it, as "refined superstition." He did not believe sectarianism should be taught in a State institution. In his claim that religion should be taught in the University he gave Webster's definition of that term, to wit: "The recognition of God as an object of worship, love and obedience; right feelings towards God as rightly apprehended; piety." He said the sanctity of an oath cannot be preserved without religion, and cited the universal opinion of the attorneys of this country relative to the valuelessness of Chinese testimony in our courts of justice.

Continuing the discussion as to what of a religious character should be taught in the University, the speaker said that among the orthodox Christian churches there is but little difference of opinion. The clergy, as well as many teachers, came in for a share of criticism for their cowardice as shown in their fear of offending the irreligious. He believed the world is growing better instead of worse, and that the want of religion among the masses is the main reason why no more religion is taught in our public schools. He thought that prayer and a useful life was the most successful lessons to be taught our youth. The reason the apostate use of tobacco was because he found from experience that a good scholar could not be made of a boy addicted to that habit.

President Brown said he did not propose to do or say anything calculated to in any manner injure the State University, but said he should continue to teach morality in that institution, and that the good effect of such teaching is plainly visible among the students of both sexes.

Address of T. E. Sisson.

Rev. T. E. Sisson followed in a very able and comprehensive discourse on "Educational Work," from which the following extracts are taken:

There is no greater problem than that of giving each boy and girl in every family a practical education. The remote situation of ranching districts, the great need of assistance of the boys and girls in carrying on the work, the question of expenses, and last but not least, the indisposition of the older children to make up the sad deficiencies of their education are circumstances which the parents, teachers, and all interested in the welfare of the youth must meet and master if the future business enterprise and happy homes are to be retained and maintained by our own boys and girls.

We hold that the studies comprising the course of study should always be with strict reference to the abilities and proposed life work of the student, providing of course that the foundation of the general English education has been laid.

This rule will, we believe, bring the right men into the right places, or, in other words, secure to the student a classical education. This is the rule and law by which we must test the young people. Some are hopeless as to the possibility of reclaiming many of the unimproving youth about us. The miner finds two pieces of rock; one of them looks much superior to the other. His judgment is that the poorer rock will hardly cast a color. The actual worth, however, of either must be proven by the test, and there are possible chances that the poorer prospect will have given the better results. This is equally true of the youth. They must be tested; they must be placed where their two worlds will appear. The strong young men climbing the hills for the stock may have a good business or legal mind. Testing alone will give the correct result.

An education that does not make one better in every way fails of its inherent purpose. Education means growth—the furnishing of food for the mind causing intellectual health. Growth means development. Development means character. A correct education therefore lays the foundation of true staidness and exalted citizenship. The great agency raises a common, yet ever-advancing standard and both incites the boldest action and encourages the weakest attempt. Our investigation will now turn to the systems and agencies by which we hope to keep the measured tread of a mighty people marching in the light of this glorious standard.

Socrates halloved the work of teaching the youth with a martyr's blood. The greatest jewel of earthborn destiny is the mind of the child. This we commit to the public school for a training in keeping with its works. The public school system is and will continue to be the marrow of our American intelligence. Within its precincts the broad wave of childhood is set moving through the course of life. The safeguards of this great system should be maintained with the utmost vigor and all its traditions, we believe, should be secured beyond the lines of any partisan politics. This State is loud in praise of some of the best school boards and teachers, and must in the exposure of some of the vilest officers and most incompetent teachers that it is possible to imagine under the high standard which both teachers and people aspire to follow.

Every board should endeavor to find the pearl of great price, and then having found it, to go and sell all they have and secure the treasure. So will gem polish gem. The great diamond which the East India Company gave the English Crown suffered four-ninths loss of weight from the cutting. So the child's mind may be despoiled of much of its worth and beauty by an incompetent instructor. The primary work is all important and must not be overlooked, for a year in this grade is of more importance to the child than two years in more advanced grades. The higher education begins where the common school leaves off. This term does not mean higher because of more consequence, but because it pertains to older children in higher studies. The age at which great numbers drop from the public school is surprisingly young. Professor Butler of Columbia College, New York, says that a large proportion of the children in the United States over twelve years of age are not in a school of any kind. Certain it is, that in this State the great majority of boys and girls over fifteen years of age are not in any kind of school. Work is a great preventing cause of this. Many boys, especially in the Spring, are taken from the schools months before the term is over in order to work the ranches and the stock. The work of the entire school year is virtually lost; and a few years of such experience will discourage and kill all the ambition that any ordinary boy has for an education. This is the condition of a large class, and for its redemption we bespeak the most active, earnest and wise provision. These, if ever saved from the lower levels of ignorance, must be turned into lives different from the public school experience.

The first to the rescue of this class now being shipwrecked in the midst of their school years is the school of higher education—schools giving special attention and special courses, a school that will encourage the boy, to his father's right, yet will let out his baby sister's knowledge of books; a school that will inspire the soul of a youth with greater prospect, that will enlarge the mental horizon, and ultimately will forge from the mind the thought, decision and purpose of a man; a school that will give the greatest education is the special school of academic grade, and, after observation and experience, we regard the plan of one or more communities uniting to build and equip and maintain a school of this kind as necessary, eminently desirable and practically necessary because no other school will offer inducements and put forth the effort which will enlist the attention and interest of the young people, a large proportion of whom are doomed to comparative ignorance unless such a school is built in the world's history, and ultimately will forge from the mind the thought, decision and purpose of a man; a school that will give the greatest education is the special school of academic grade, and, after observation and experience, we regard the plan of one or more communities uniting to build and equip and maintain a school of this kind as necessary, eminently desirable and practically necessary because no other school will offer inducements and put forth the effort which will enlist the attention and interest of the young people, a large proportion of whom are doomed to comparative ignorance unless such a school is built in the world's history, and ultimately will forge from the mind the thought, decision and purpose of a man; a school that will give the greatest education is the special school of academic grade, and, after observation and experience, we regard the plan of one or more communities uniting to build and equip and maintain a school of this kind as necessary, eminently desirable and practically necessary because no other school will offer inducements and put forth the effort which will enlist the attention and interest of the young people, a large proportion of whom are doomed to comparative ignorance unless such a school is built in the world's history, and ultimately will forge from the mind the thought, decision and purpose of a man; a school that will give the greatest education is the special school of academic grade, and, after observation and experience, we regard the plan of one or more communities uniting to build and equip and maintain a school of this kind as necessary, eminently desirable and practically necessary because no other school will offer inducements and put forth the effort which will enlist the attention and interest of the young people, a large proportion of whom are doomed to comparative ignorance unless such a school is built in the world's history, and ultimately will forge from the mind the thought, decision and purpose of a man; a school that will give the greatest education is the special school of academic grade, and, after observation and experience, we regard the plan of one or more communities uniting to build and equip and maintain a school of this kind as necessary, eminently desirable and practically necessary because no other school will offer inducements and put forth the effort which will enlist the attention and interest of the young people, a large proportion of whom are doomed to comparative ignorance unless such a school is built in the world's history, and ultimately will forge from the mind the thought, decision and purpose of a man; THE SAN FRANCISCO
MORNING CALL
Price, \$6.00 per Year,
AS PREMIUM FOR
C1889-0

THE SAN FRANCISCO WEEKLY CALL
is a handsome eight-page paper. It is
issued every Thursday, and contains all of
the important news of the week, gleaned
from every quarter of the globe, complete
up to date of publication. It contains in-
teresting special correspondence from all of
the principal cities of the world and a vast
amount of the best selected and original
general literature. It furnishes the latest
and most reliable financial news and mar-
ket quotations, and gives special attention
to horticultural and agricultural news, and
is in every respect a first-class family paper,
appealing to the interest of every member
of the household.

THE MORNING CALL.
(SEVEN ISSUES A WEEK)
is a live metropolitan daily. It has the
LARGEST CIRCULATION and is recognized
as being the LEADING NEWSPAPER of the
Pacific Coast. Either of the above papers
will send postpaid as a premium on re-
ceipt of the following subscription prices
for the combination:

Francisco, Cal., where contracts for adver-
sizing can be made for the year 1889.

THE GOOD TIMES AT HOME.

O, the good times at home! how sweet to re-
member
The pleasures and joys that surrounded us
then,
From December to June, and from June to De-
cember.
When we were unburdened with sorrow or
care.
From garret to cellar, from cellar to garret,
With happy abandon we frolicked and
played,
Invoking the spirits of music and laughter,
And nobody frowned at the racket we made.

O, the games and the gambols out-doors, so
inviting,
With home very handy to run to, in case
Some lawless marauder, against us uniting,
Should press us too closely, compelling a
race.
All through the dear dwelling and every place
near it,
So fearlessly, freely, permitted to roam,
What wonder that we should decide in our
childhood
There was naught to compare with the good
times at home!

Then the games in the evening in which we
would riot!
The telling of stories, adventures, and all
That had brightened the day! And then, later,
the quiet,
The peaceful home hours—how sweet to re-
call!
There were books, there were pictures in en-
dless profusion.
The sick or the studious ones to beguile;
And the dark winter days were made cheerful
and pleasant
By the mother's dear presence, her voice and
her smile.

O, blest were the ties of affection that bound
us!
O, joyously sweet were the songs that we
sang,
When merry companions were gathered
around us,
And familiar the scenes that we frolicked
among!
Though many a banquet is spread for our
pleasure,
Though oft from the fireside tempted to
roam,
The heart will still cherish its fond recollec-
tions
Of the days that are past—and the good
times at home!

—Josephine Pollard, in N. Y. Ledger.

GRANDPA'S STORY.
He Tells a Very Good One All
About Himself

"So it seems Fred Hayes has finally jilted
Fanny Howe," said Grandpa West, one
rainy morning, as he stood shaking the
drops from his great coat on our kitchen
steps.

"Yes," replied I, as I filled a pan with ap-
ples and prepared to cut them, "and more
shame to him, too. Brought her clear up to
an engagement, and then left town with
another girl, and without one word to Fanny."
"Shame!" repeated good Grandpa West,
with an indignant flash from eyes blue and
clear as at twenty-one; "it's a disgrace to
any Christian church to let one of its mem-
bers go on so. Time was when he wouldn't
have gone scot free as he has now!" I in-
quired.

"Done!" He'd have had the full broadside
of church discipline on his shoulders fifty
years ago. He ought to be dealt with as
Harmon Page was," concluded grandpa,
meditatively.

"How was that?" inquired I, interested
at once.

"I wonder if you ever heard that story?"
said he, with a curious glance understood
better afterwards. "See here, it's a rainy
day, and mother won't be expecting me
home. Hand over a knife and I'll help you
with your apples and tell that yarn at the
same time."

"Well pleased with the plan, I took another
pan, and our fingers flew as grandpa went
on with the true and authentic history of
Harmon Page.

"You see," he began, "all this happened
fifty years ago, and Amityville wasn't then
the slow-going, dull little place it is now.
It was comparatively new, and was as lively
and enterprising as the new places of the
West are to-day. There were a good many
old aristocratic families, though, and I tell
you they held their heads high. The very
metest house slips had to be gauged ac-
cording to the rank of the buyer, and I tell
you old Deacon Avery would never have got
the scowl out of his forehead if Squire Page
had happened to have a seat in front of his.

"Deacon Avery had a daughter—a quiet,
gentle girl, with a slight graceful figure
and a face—well, you don't see such faces
nowadays; a clear, fine complexion, with a
delicate pink trembling up into her lips
when she was spoken to. Her eyes were
great limpid wells, changing with every
thought, and her hair was a soft chestnut
brown, waving about her face in its own
wayward style.

"She was a lovely girl, became a professor
young, and was always to be seen in the end
of the deacon's pew every Sunday, rain or
shine. She'd never had much company, for
there was a kind of dignified reserve about
her that kept the fellows at a distance. But
when she was long 'bout eighteen or twenty
Harmon Page began to go with her.

"He was a handsome, high-spirited chap,
lively and full of talk, and as different from
Mercy Avery as two persons could be. But
they loved each other; there's no doubt about
that. Many's the time I've seen her grand
eyes sparkle and pretty cheeks flush at
Harmon's witty speeches, till she was
really brilliant. And he, with all his proud
spirit, always grew strangely gentle with
Mercy.

"So, in spite of the rivalry that had al-
ways existed between the two families, no
one would have disturbed the two, had it
not been for Virginia Wake. She was a
daughter of Colonel Ford's first wife, and
came there visitin' from the South.

"Virginia was called a handsome girl,
with her brunette face, flashing black eyes,
and heavy black curls she was never tired
of jangling around her neck. She had a
dead, too, of what you call 'style' and
Amityville folks who didn't know as much
of the ways of the world as they do now,
were completely fascinated with her taking
ways. The young fellows in particular
hovered around her like moths around a
candle.

"All except Harmon Page. He had en-
gaged himself to Mercy, and at first gave
the new comer the go-by. The Pages and
Fords had a family feud of a good many
years' standing, which was not likely to
be one thing, and Virginia had plenty of
company besides Harmon.

"But I suppose Harmon's indifference
pleased the girl, and she snubbed the other
boys and exerted all her charms on Harmon.
She came in the fall, and 'telling about
Christmas time the neighbors began to no-
tice that Virginia was mighty thick at the
Pages.

"The two houses were pretty near to-
gether, and she used to run over to Mother
Page's, on some excuse or other. She was
times a day. Perhaps 'twas strange that
Harmon began to be flattered by it. He had
as good a turnout as any chap in the place,
and he got in the habit of taking Virginia
considerable.

"You see position's every thing in more
cases than one, and Virginia was right there
handy, while Harmon was one of those
old-fashioned Connecticut hills,
a dreadful hard road leading to it.

"Whether she knew how much Harmon
was taking to her, she didn't get out much,
except to moan that winter, and she had
enough of her father's snub about her not
enough of her father's snub about her not

Virginia Wake at the noon's.

"There was splendid sleighing that sea-
son—the kind we don't have these days—
and some of the young folks wanted to have
a general sleigh ride. It was put off from
time to time, till 'twas finally set for one
Thursday night.

"It was the night of the regular weekly
prayer meeting, and after the time of the
ride was all settled Harmon, who was the
only professor in the party, tried to little
have it changed. But Virginia Wake de-
clared, with a wicked shake of those jing-
ling curls, that she could say her prayers
just as well in a sleigh as she could cooped
up in that stupid barn of a meeting house.

"Every body thought afterward that she
fixed the ride for that night to show Mercy
Avery the power she had over Harmon
Page.

"Well, the party started from Amityville
'long about five o'clock. They were all in a
big two-horse load except Virginia and Har-
mon.

"She had arranged for them to go ahead
in his cutter alone, and I'll admit they were
a splendid looking couple—he with his fine
eyes and teeth, and she in a rich crimson
hood that set off her dark beauty to per-
fection.

"Our route—for I was one of the party—
lay straight up the hill towards Deacon
Avery's. Just as we turned into it who
should we meet but the deacon and Mercy.
"They were late, for the meeting was
slightly anticipated for early candle lighting;
but Mercy had probably waited awhile for
Harmon, who for a year back had taken her
to Thursday meetin' as regular as the day
came round.

"She sat up straight and queenly beside
her father as they passed, and seemed not
to hear the malicious sally Virginia called
out to her.

"We, in the back team, were near enough
to catch the scornful glance she threw from
those deep eyes, gray as steel that night.
"As for Harmon, he turned white to the
lips, and for a mile hardly answered the
banter that Virginia kept up. After that
he seemed to grow perfectly reckless,
laughed and joked louder than any of the
rest, and was so careless that he drove on
a stone wall; and we, following, were all
upset in a heap together, and had hard
work to get tied up so as to make our way
home towards morning more dead than
alive.

"It was a sorry day for Harmon Page.
He was waited upon by a church commit-
tee, headed by Deacon Avery, who de-
nounced his whole conduct towards Mercy
as unchristian and highly inconsistent in a
church member.

"He didn't have much to say for him-
self, and they churched him on the spot.
He was pretty down in the mouth, but kept
up some hope till he saw Mercy Avery.

"He had refused to see Virginia Wake,
and that night he went up the familiar hill
to Deacon Avery's stone house.

"Mercy herself came to the door calm and
self-possessed, as if nothing had happened,
and showed him into the sitting-room.
There was a steady light in her gray eyes,
though, though she trembled, and, and,
without beating about the bush a bit, he
came right to the point, and asked if it
might be forgiven and forgotten, and they
became as good friends as before. He
worked himself into a passion, cried and
looked on like a child, they said.

"But, law, it didn't move her an atom.
She had the genuine old Avery grit, if she
was mild mannered, and she told him that,
as long as the church had put him out, she
of course in conscience couldn't take him
back.

"He pleaded and entreated until ten
o'clock at night, a late hour in them days,
but it didn't make a mite of difference. She
wouldn't overlook what the church had con-
sidered a gross breach of faith. He went
out a crushed man, and from that time his
spirit seemed to leave him utterly.

"And what about Virginia Wake?" I in-
terrupted, unconsciously cutting my finger
in my eager interest.

"Oh, after the girl had done all the mis-
chief, she pulled herself together, and be-
came changed 'marin quick, and she left town
in a few days, and was never heard from in
these parts again."

"And Harmon Page—what became of
him?"

"He never got over the shock. He be-
came silent and melancholy, and finally had
to be taken to the Retreat. He grew worse,
and the sight of a handsome woman with
red cheeks and black curls would always
throw him into his most violent tantrums.
He died in the asylum at last."

"Now, I think that was real mean," said
I, wrathfully, winding cotton around my
bleeding thumb. "If Mercy Avery hadn't
turned him off his life might not have ended
so sadly. I think she ought to have taken
him back."

"Ah, ha," said Grandpa West, quizzically;
"do you mean that?"

"Certainly," said I, with dignity, "why
shouldn't I?"

"Oh, nothing," he replied, "only if she
had, Harmon Page would have been her
grandfather instead of me."

"My grandfather—why, then," said I, in
some confusion, "Mercy Avery must be—"

"Mercy West, your grandmother," said
Grandpa, chuckling under the weed. "I
confess now that 'all's well that ends
well.'"

"I suppose so," said I, reluctantly.—New
England Magazine.

MRS. BURNETT'S VICE.
The Author of "Little Lord Fauntleroy"
It is always a severe shock to come upon
one of our idols that has been dethroned, or
one which has done something that makes it
unworthy of our mental apotheosis, observes
the Indianapolis News. Some lady friends
who have been in Boston at various times
for prolonged periods, on a recent night,
two ago of some Mrs. Frances Burnett's
idiosyncrasies. They lived in the same
house with Mrs. Burnett for several
months, and came to know the author of
Little Lord Fauntleroy quite well. Women
down in "the Tennessee mountains" may
smoke and do all the disreputable things
they please, but a lady who stands at the
head (as one may say in truth) of
America's literary women, may not do
them. Now, Mrs. Burnett does not smoke a
pipe, and did not when the visitors from
Indianapolis became acquainted with her.
But she did smoke cigarettes, and possibly
continues the practice, for the list of those
who abandon the habit after it is once
formed, is not a long one. It is well that
the ordinary cigarette to be had at the drug
store or tobaccoist's that the literary lady
indulged in, but a brand specially imported
from Spain. She had, in addition, costumes
from the same land, in which she arrayed
herself when going to the theatre. The
dark-eyed senoritas of Spain can afford to
do this unwomanly thing, perhaps, but
can an American woman! Possibly the
thing a man last excuses in a woman is un-
womanliness—that is, where the grade of
her ill-doing is above the more evidence of
her ill-breeding or vulgarity. A cigarette-
smoking woman is not a particularly dis-
tasteful spectacle.
